

About US

JapanSSW is a comprehensive platform dedicated to empowering foreign workers seeking skilled trade jobs in Japan under the Specified Skilled Worker (SSW) visa. We aim to bridge the gap between job seekers and opportunities by providing streamlined job-matching services, visa assistance, and essential community resources.

Our journey began in 2024 when Juan Angelo, a first-year student at MMDC and an SSW visa holder, founded JapanSSW. Inspired by his own experiences as a working student in Japan, Juan recognized the challenges foreign workers face, from navigating complex immigration policies to finding secure employment. His vision was to create a platform that not only simplifies these processes but also drives meaningful change in Japan’s labor landscape.

Our Mission

Fair careers for workers. Trusted recruitment for employers. Sustainable growth for Japan.

Our Vision

To be Japan’s leading platform that empowers skilled foreign workers to achieve meaningful careers and brighter futures.
